MAD SCIENCE AFTER-SCHOOL CLUB

Eight weeks of exciting hands-on science based activities. Watch fascinating demonstrations, join in enquiry-based discussions, participate in individual and group experiments, and make amazing take-homes. Mad Science will spark the curiosity and imagination of children with fun science activities that will help them understand the world around them.

School: HENRY HUDSON ELEMENTARY | TUESDAYS, 12:20 – 1:00 P.M. (GR. K-2)
Dates: APRIL 9, 16, 23 & 30TH; MAY 7, 14, 21 & 28, 2019

Space is limited so register early - \$105 (includes tax) for 8 weeks
*** MONITOR FOR OUR eMAIL ONCE YOU REGISTER *** DEADLINE: FRIDAY, APRIL 5, 2019 ***

MARVELOUS MOLECULES

When atoms meet and get along, particles called molecules can form. Students will learn about the huge number of molecules that can exist in the world, and how molecules are the reason why there is so much fun and excitement in science!

A DAY IN THE LABORATORY

What do you think chemists do? What would you do if you were a chemist? Students will create their own chemistry lab and learn how to analyze different chemicals to find out what they are made of... and understand the difference between soft and hard water!

BRAINS!

A wise man once said, "I think therefore I am". Find out how our brains give us the ability to feel, think and interact with the world!

MAD MUCUS

Mucus is not only fun and gross... it's also one of the most important substances our bodies produce! Learn how our bodies use it to defend against bacteria and viruses!

RADICAL REACTIONS

Students will learn about matter and the laws that define its existence in the universe. Is it possible to get rid of matter? Let's see if we can create something out of nothing!

CRAZY CATALYSTS

When it comes to chemistry and reactions... sometimes, we need a little help from substances called "catalysts". Students explore how we use catalysts in our daily lives!

DETECTIVE GADGETS

What is one of the most important skills that detectives have? Find out the answer during class and use some of the gadgets that help us amplify this skill to solve crimes and mysteries!

CRIME SCENE INVESTIGATION

A crime has occurred in the classroom! Students will use their finely-honed skills to investigate and determine what happened and bring the perpetrator(s) to scientific justice!
